

PVC SAFETY CERTIFICATE

Phthalates Test - Independent Verification

PilaMania Modular Decoration Balls

✓ **COMPLIANT WITH EU REACH REGULATION**

Summary

This certificate confirms that the PVC material used for the PilaMania decoration balls has been tested by SGS - one of the world's most renowned independent testing laboratories - for the presence of harmful phthalates (plasticizers).

All 31 tested phthalates - including all substances regulated under EU REACH - are Not Detected (below detection limit). The material therefore complies with the strictest European safety standards for consumer products.

Test Results

The table below shows the most important tested phthalates and the result. All 31 tested substances scored "Not Detected" (ND = Not Detected).

Tested Component	Result	Status
DEHP (Bis-(2-ethylhexyl) Phthalate)	Not detected	✓ Compliant
DBP (Dibutyl Phthalate)	Not detected	✓ Compliant
BBP (Benzyl Butyl Phthalate)	Not detected	✓ Compliant
DINP (Diisononyl Phthalate)	Not detected	✓ Compliant
DIDP (Diisodecyl Phthalate)	Not detected	✓ Compliant
DNOP (Di-n-Octyl Phthalate)	Not detected	✓ Compliant
DIBP (Diisobutyl Phthalate)	Not detected	✓ Compliant
DMP (Dimethyl Phthalate)	Not detected	✓ Compliant
DEP (Diethyl Phthalate)	Not detected	✓ Compliant
22 additional phthalates	Not detected	✓ Compliant

Detection limit (MDL): 0.003% - 0.010%. For the full test report, please refer to the original SGS document (report no. CANPC26005404013).

What Does This Mean For You?

Phthalates are chemical plasticizers added to PVC to make the material flexible. Some phthalates can be harmful to health and are therefore strictly regulated or banned in the European Union under the REACH Regulation (EC 1907/2006).

This certificate means for you:

- The product complies with the EU REACH Regulation for phthalates
- The product contains no harmful plasticizers
- The product is safe for use in professional and consumer applications
- The product can be sold throughout the entire European Union
- It distinguishes itself from cheap alternatives without safety guarantees

Certification Information

Testing Laboratory	SGS-CSTC Standards Technical Services Co., Ltd.
Location	Guangzhou Branch, China
Report Number	CANPC26005404013
Testing Period	12 - 19 March 2026
Issue Date	30 March 2026
Test Method	EN 14372:2004 (European Standard)
Analysis Technique	GC-MS (Gas Chromatograph - Mass Spectrometer)
Tested Material	PVC raw material (powder and oil mixture)

About SGS

SGS (Société Générale de Surveillance) is the world's leading inspection, verification, testing and certification company. With more than 97,000 employees worldwide and a network of 2,650 offices and laboratories, SGS is internationally recognized as the benchmark for quality and integrity.

SGS test reports are accepted by regulatory authorities, retailers and manufacturers worldwide.
